7	VI.	Selectmen's Reports
8		Mr. Hart reported a conversation with a business owner regarding people entering his
9		place of business without wearing masks. The business owner asked whether signage
10		could be put up to state that the Town is a mask-wearing community. He felt people
11		from out of Town coming in might not adhere to Covid-prevention measures. Educating
12		them as they enter town might help.
12		them as they enter town might help.
14		Public Works Director Smith suggested that signs should be placed at all entries into
15		Town.

		Mr. Hart wondered if the message could be stated on one of the Police trailers. It doesn't
18		necessarily have to be permanent. Ms. Littlefield agreed. Town Manager Lunt agreed to
19		follow up with Police Chief Willis.
20		
21		Resident Jim Bright noted the Somesville One Stop seems to have a number of customers
22		who do not wear masks. They might be asked to enforce the rule. Manager Lunt agreed
23		enforcement can be done.

1 2 Ms. Littlefield requested Manager Lunt reach out to Ms. D'Amboise and also the 3 historical societies to assess the situation and begin planning how to address and support 4 the needs. 5 6 B. Fire Department's 10-Year Strategic Plan 7 Fire Chief Mike Bender reported that the number of Mount Desert firefighters has been in 8 decline for years. Additionally, several firefighters have been on the force for years. 9 Chief Bender expects that within three to five years these firefighters will retire or 10 otherwise age out, and staffing will become critical. There have been calls, particularly 11 at night, that have gone unanswered by Mount Desert, due to volunteers being unable to 12 respond, or living further away. 13 14 In an effort to address the concern, Chief Bender developed a 10-year plan and a 15 timeline. While it is not Chief Bender's intent to create a full-time fire department, on-16 call firefighters will continue to be necessary. The plan proposes having two firefighters 17 on duty 24/7 within three or four years. 18 19 If the plan is approved, appropriate housing will be necessary for 24/7 on-call 20 firefighters. Chief Bender will present to the Board some concept plans and elevation 21 drawings for a new station by the next meeting. 22 Chief Bender has been discussing the situation with the Ambulance Service. It's the 23 24 hope that Fire and Ambulance can help and support each other, particularly if the Fire 25 Department has two firefighters on duty at all times. 26 27 Chief Bender's plan includes a timeline for building a new fire station and hiring 28 firefighters. He hopes to hire next year, with an additional two hires the following year, 29 if building a fire station is approved. 30 31 Mr. Hart reported he had received a call from an on-call firefighter voicing concern about 32 the addition of firefighters and housing them. The firefighter suggested installing 33 bunkbeds at a station, rather than building a brand-new station. 34 35 Chief Bender noted such an option is possible. Using the community room in a fire 36 station as housing takes the use from the community. Perhaps the Town would not feel 37 this was a significant concern. Looking at a pie chart in the plan showing where most 38 incidents occur, nearly 60% of the incidents involving the Fire Department occur in the 39 Village of Northeast Harbor. The hope is to place firefighter resources as close to where 40 the incidents occur as possible. 41 42 Ambulance Service Director Basil Mahaney noted that there was staff at the Seal Harbor 43 fire station at the beginning of the Covid-19 pandemic. The majority of the ambulance 44 calls are to Northeast Harbor, followed by Somesville. Operating out of Seal Harbor 45 resulted in making ambulance response time lengthier. 46

Mr. Wood pointed out that one chart reports 58% of the calls come from Northeast Harbor, yet another chart says activated fire alarms in Northeast Harbor are at 47%. Chief Bender noted a majority of those are monitored fire alarm systems, being monitored by an operator. They are not necessarily schools or facilities; many are private residences.

Mr. Wood asked if there was a plan for recruiting new volunteer firefighters. Chief Bender agreed it could be difficult. Volunteer pay has been increased regularly volunteers are currently receiving \$14.80 an hour. Volunteers get a two-hour minimum call-in pay. This is an incentive to get volunteers to respond to the calls. Volunteers are paid for training attendance, maintenance work, and things of that nature. Additionally, there is an incentive award each year, based on how many years they've been a volunteer.

14 Chief Bender feels that money is no longer an incentive for volunteers anymore. 15 Firefighting requires a large amount of training. The time involved can make 16 volunteering a struggle. Housing in Town is a problem for those who might be interested 17 in volunteering. Chief Bender pointed out that of the firefighter staff he has, ten belong 18 to other fire departments. Several Mount Desert firefighters live outside of Mount 19 Desert. Those interested in getting into firefighting, are often hoping to make it a full-20 time job. There have been times when firefighters that started with and received training 21 from Mount Desert ended up taking full-time jobs elsewhere. 22

- Director Mahaney concurred with Chief Bender's assessment. Ambulance Service is
  seeing the same issues. There are simply not enough year-round residents to fill positions
  in both firefighting and ambulance service. This has been a catalyst for Fire and
  Ambulance to try to pool their resources and share the work.
- Ms. Dudman felt it was a good plan and includes a good amount of background
  information for the Board's consideration. She inquired about the issue of island-wide
  consolidation.
- Chief Bender reported that consolidation discussions are ongoing. He did not feel an island-wide Fire Department would happen within the next couple years. Even if islandwide consolidation occurs, fire stations strategically placed across the island will still be necessary. Two Towns do not seem to support consolidation.
- Chair Macauley felt that regardless of where the issue of consolidation was, it was clear
  the Town needed more personnel. He thanked Chief Bender for the plan.
- Public Works Director Smith noted that Ambulance and Fire personnel must be enticed
  to the Town of Mount Desert. He did not believe bunk beds in the fire stations would be
  an enticement.
- Ms. Littlefield wondered if there would be enough fire fighters in three to five years. She
  wondered if a small renovation to create living space now would be prudent. Hiring new
  firefighters would justify building a new station, but on-call firefighters will still require

1 2 3 4 5	space. Chief Bender noted that renovation of the Northeast Harbor station was looked at for feasibility. It became clear the facility would not last more than another 10 to 15 years. Given that, Chief Bender did not feel investing in renovations at a building that wouldn't last beyond 10 or 15 years was a wise use of funds. To house firefighters in Northeast Harbor, bunkrooms, restrooms, and an elevator would be required.
6 7 8 9 10 11 12	Director Mahaney supported Chief Bender's plan. While the Town has been able to depend on volunteers for both Fire and Ambulance, volunteerism is just not as dependable as it once was. The Ambulance Service is currently crafting a five- to ten- year plan, to study the trajectory of the Service. He lauded Chief Bender's efforts at creating a plan for a new station that would be able to house and benefit both groups.
13 14 15 16	MOTION: Ms. Littlefield moved, with Mr. Wood seconding, acknowledgement of the Plan received with thanks to Fire Chief Bender for his work. The Board would support and move forward with what they can. VOTE:
